Transfer of Semen

American-International Charolais Association
11700 NW Plaza Circle • Kansas City, MO 64153
phone (816) 464-5977 • fax (816) 464-5759

1. The DNA for any bull being used out-of-herd A.I. must be on file with the AICA.
2. The owner of the sire or his authorized agent must assume the responsibility of filing an electronic signature with AICA. The electronic signature can be filed at any time as long as the semen seller owns the bull or semen on the breeding date.
3. If the person selling semen does not own the bull, but has electronic signatures on file, the signings may still be transferred.

The number of electronic signatures transferred represents the number of signings allowed the buyer.

On _____, electronic signature were transferred to the buyer named below.
month/day/year

This will allow _____ registrations.
