

My Natural Signatures

When registering an animal, if you naturally bred to a bull you don't own, a Natural Signature is required to be put on your account. To see what signatures, you have on your account go under **My Account > NAT Service Signatures > My Signatures**.

Here you will see each bull you have natural signatures for and how many. *Note: Only if you own the bull can you give signatures. Also, if you own the animal, you do not need signatures.*

The screenshot shows the 'My Natural Service Sire Signature Bank' page. The table below lists animals with their respective details. The '#Units' column and the 'Give Sig' links are circled in red.
