HERD HEALTH:
The herd veterinarian will be on hand to issue health charts for all cattle. All females that sell have been calfhood vaccinated.

VETERINARIAN:
All sale cattle will be tested for delivery throughout the United States and the veterinarian will issue the required interstate health certificates.

INSURANCE:
Insurance for your purchases will be available at the settlement desk.

SUPPLEMENT INFORMATION & PENNING ARRANGEMENT:
All additional and updated information will be printed and available to all prospective buyers upon arrival, including pregnancy information. There will also be a penning chart as to where all lots are located at the sale site.

BREEDING GUARANTEE:
All females sold as “safe in calf” will be guaranteed to be pregnant. The buyer will have 30 days from sale date to verify the pregnancy status of each female by a licensed veterinarian. If any female sold as “safe in calf” is found not to be pregnant, if in a healthy condition, may be returned to the seller, at the buyer’s expense. After verification has been made that she is open, a full refund will be made.

BULLS:
All herd sires selling have been exposed to females this summer through 9-17-19. All breeding age bulls that sell, will be semen tested. All non-virgin bulls will be Trich tested.

LUNCH:
Lunch will be available at Billy B’s Sale Barn Café.

Charolais Friends,

My familiarity with the Sturgess Family and their cow herd goes back to the first days of my career as a Charolais Field Representative. After I was handed my keys and turned loose upon the wider Charolais world, one my first stops, was in LaRue. I spent the day riding around with Jerry, talking cows, talking shop, and talking about how hot it was. July in LaRue is pretty hot. As I left the ranch that day, I remember thinking that here was an operation that had a focus, a plan, a goal. Over the years I grew to admire Jerry and Gwynette, Michael, and Jay for their willingness to reach out and try something new genetically but without sacrificing their commitment to quality.

That commitment to quality is something that is continually on display as you read through the pages of this catalog. You will see that many of the females have been noted as producing standout sires, not once but many times and daughters that were destined to build the next generation have also been noted. Come sale day, you also have your choice of the bulls that could have been high grading Charolais Bull at the San Antonio Stock Show All Breed Bull Sale or the lead off lot in the annual bull sale, none are being held back.

With this catalog we mark an ending for the Jerry and Gwynette Sturgess Charolais Herd, but it also serves as a beginning. Everyone who purchases these genetics will continue the story of the Sturgess Double S herd and add to the legacy that Jerry and his family worked so hard to create. Buy with the confidence that these genetics are some the very best not only in Texas but throughout the country.

As always, if myself or any of the Sale staff can assist you with your plans or questions about this offering, don’t hesitate to call.

Thank you,
Wes Chism  
JWC Marketing  281-761-5952  JWChism@outlook.com

Dear Charolais Friends:

Many thanks to ALL of our customers for the past 25 years. We have tried hard to bring the kind and type of cattle to you to move you forward in the cattle business. My family has been in the cattle business in one way or another all of my life. My father was one of the owners of Tulia Feedlot in Tulia, Texas. Michael has been in his business for 37 years and in the family business all of his life growing up. Jay and I bought cattle day and night for 25 years. Kynan was in family business growing up and graduated from Oklahoma State University as a Veterinarian and is now one of the partners of Hereford Vet Clinic. My wife, Gwynette, grew up on a ranch and her father and mother worked at one time for the XIT and Dick Brownfield Ranch.

When you get our age, they turn you out to pasture which means, “Dad, there is 500 acres of hay fields to be baled.” Frankly I am glad I can still bale that hay.

Thank you for all of your support over the years. We believe we have a wonderful set of cattle in this complete dispersal to show you. Thanks for all the wonderful years.

Sincerely,
Jerry and Gwynette Sturgess

**Note:** The above table includes the details of heifers born between different dates, with various breed information, and pasture exposure details. Each heifer is identified by a unique registration number (Reg No) and includes details such as birth date, registry number, polled status, and specific breed information. The table also provides information on AI breeding dates, pasture exposure dates, and various carcass and reproductive characteristics. The heifers are listed under different categories such as Lot, with additional details like sire, dam, and breed characteristics.
