Charolais & Red Angus Farm Annual Production Sale

Lot 21
WCF Mr Monumental 992

Lot 108
Weber Mr Entourage 989

Monday, April 6, 2020 • 1:00 PM CT
at the Weber Satellite Ranch
38667 296th St., Lake Andes, SD 57356
Dear Friends,

It is with our enjoyment to invite you to our annual “Meat and Muscle” bull sale at our sale location at Tim’s place (Weber Satellite Ranch). We will be serving an appreciation meal for those attending starting at 11:30 followed by our sale starting at 1:00 p.m. We will host an appreciation supper meal a short time after the conclusion of our sale. Our sale will begin with the Charolais bulls, Charolais heifers, Red Angus heifers, Red Angus bulls and the commercial Red Angus bred heifers and pairs will end the sale.

Our total herd health is run through Northwest Veterinary Clinic in Wagner and Parkston by Chris Freidel, D.V.M. and Sweetgrass Veterinary Services in Dimock by Erik Holum, D.V.M. We feel that it is our duty to provide the best possible health program that a program can apply. All semen testing, ultrasounding, scrotal measurements, herd fertility, and soundness is monitored also through Northwest Vet and Sweetgrass Veterinary Services.

The health of our calves born begins before the calf is conceived. We believe it begins with the mother’s mineral program, proper daily protein consumption, high quality feed stuffs, and minimizing feed stuffs with high content of molds and yeast. All minerals and protein concentrates used contain a yeast/mannan-oligosaccharide(y/mos) at a 15 gram level daily consumption for toxin binding.

Our bull rations are consulted through J & R Feeds. The ration is designed to provide a diet that will allow the bulls to grow for adequate average daily gain, structural soundness, fertility, longevity, and industry changing performance. Any questions pertaining to the ration, feel free to ask Jason or any of the J & R feed consultants on sale day.

This is a family operation and we appreciate the gathering of new and old friends, new and old customers, and new and old family members. We can’t give enough thanks to everyone who helps make this event happen, it is greatly appreciated.

Our cattle industry is constantly changing, and with those changes we are advancing our genetics to a level we never would have imagined. Who would have thought that cattle could be finished at 12-14 months of age with the same efficiency, yield, and grade.

We feel this is an excellent set of bulls for the industry. Our markets are seemingly favorable for some opportunity. We are fortunate to raise 2 breeds that favor each other very well. In a feedlot situation, the average daily gain and conversion you get from the charolais/Red Angus buckskin colored calves will add extra dollars to your pocket.

All of this wouldn’t be possible without our belief in Jesus Christ. We are a faith-based family and God comes first. We will pray for those traveling to and from our event. You are cordially invited to come and worship with us on Sunday at East Lake Andes Lutheran Church with services starting at 10:15 a.m. with a weekly potluck fellowship to follow.

God Bless,
The Weber Families

Ranch  Dean  Todd  Tim  Jason
605-384-3300  605-491-0185  605-491-0301  605-491-0986  605-491-3832
SALE INFORMATION

Location: At the Weber Satellite Ranch
38667 296th St. Lake Andes, SD 57635

Sale Day Phones:
Dean 605-491-0185  Todd 605-491-0301
Tim 605-491-0986  Jason 605-491-3832

Lunch: Complimentary lunch begins at 11:30 a.m.

After sale fellowship:
Serving Burgers, Brats and refreshments. All are welcome to stay to enjoy the rest of the day and evening.

Viewing:
The cattle are being fed at Dean Weber’s ranch until the morning of the sale and they will be transported to Tim’s ranch the morning of the sale. All heifer lots are being fed at Jason’s place. Lots 1-4, 36-41 are being fed at Todd’s place.

Cattle Videos:
All bulls will be videoed previous to the sale and viewing of them can be seen at www.dvauction.com. DVAuction will have TV screens set up in the sale ring area for you to view the prerecorded video of each bull. All ringmen are ready to take your bid, so get their attention in a courteous fashion.

Phone Orders:
Anyone who won’t be able to attend and feels more comfortable over the phone, feel free to contact any of our sale representatives or Weber family members and we will get you taken care of. If you are on the phone, you will have a fair chance just as anyone sitting in the stands.

Sale Representatives:
Auctioneers: Brad Veurink 605-680-1281
Dan Clark 605-842-6075
Ringmen: Donnie Ledy 605-695-0113 Cattle Business Weekly
Dan Piroutek 605-544-3316 Tri-State Livestock News
Jeff Kapperman 605-940-5104 Tri-State Neighbor
Weston Geppert 605-933-1387 American Int'l Charolais Assn.
Colt Keffer 765-376-8784 American Int'l Charolais Assn.
Nolan Woodruff 940-477-4594 Red Angus Assn. of America

Liability:
Anyone attending our sale does so at their own risk for which we are not responsible for accidents that may occur on the premises.

Terms:
The terms of the sale are cash. Any purchase will be settled with our clerks at the sale during and after sale before any bull is released. If there are any questions about a possible mistake in the catalog, call upon anyone of us at the Weber Ranch and we will get it corrected. All animals will be purchaser’s risk as soon as sold.

Bull Insurance:
Martin-Trudeau Insurance representatives will be on site for your assistance for insuring your bulls that are purchased. Any bull purchased over $4,000 will need to be insured or be taken home at your own risk. Webers will pay 50% of insurance premiums.

Semen Interest:
Weber Charolais and Red Angus is retaining a 1/3 semen interest in all bulls for sale today for a possibility to collect a bull for our own use at buyers convenience in the off season of breeding. The 1/3 semen interest also includes sharing of semen revenue and the buyer retains full possession.

Health Program:
All bulls have been semen tested and scrotal measured with Dr. Erik Holum of Sweetgrass Vet of Dimock, SD and ultrasound scan performed by Jeff Schoenfelder, Certified Technician CUPS, also Sweetgrass Vet. We follow an extensive shot program with our cattle to maximize optimum health and Dr. Eric Holum will be explaining that on sale day.

Feeding Program:
All rations are set up by feed samples that are taken and set up accordingly to develop a ration that will make a sound individual. All of this is consulted with J&R Feeds in which Curt Slykhuis or Jason Weber can be contacted to visit about the feeding program.

DVAuction
Broadcasting Real-Time Auctions

View the Auction Live!
Bid Online...you’re ringside right at your desk!

Buying online is as easy as 1, 2, 3...
1. Create an account at www.dvauction.com under the “register” tab.
2. Apply for bidding approval by clicking on the “details” tab at least 24 hours prior to the auction. A DV representative will notify you once you have been approved.
3. Tune in for the sale and make your purchase!

High speed internet is required for successful bidding. Be sure to check the lag-time monitor int he top left corner to ensure real-time broadcasts.

Proxy Bidding: If you can’t make time to watch the sale, registers a proxy bid and let our system represent your bid while you are away. Look for the “proxy bids” tab on the auction listing, and fill in your maximum bids. We’ll handle the rest!

Having Troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can alwasy be reached at (402) 474-5557.

Delivery:
We will provide free delivery within 350 miles. Delivery arrangements can be made at sale time or shortly following the sale. If at the sale, please give all directions possible to our clerks.

Transfer of registration papers
All cattle sold will have papers transferred upon request, so please let the ladies know when you settle up after your purchase.

Terms of the sale are cash. Any purchase will be settled with our clerks at the sale during and after sale before any bull is released. If there are any questions about a possible mistake in the catalog, call upon anyone of us at the Weber Ranch and we will get it corrected. All animals will be purchaser’s risk as soon as sold.

DVA Rep. Justin Dikoff 605-290-0635
e-mail: jdikoff@dvauction.com
Please contact me with questions about the sale or to view the cattle for you.
955 is a great leadoff for the About Time bull that is complete in all aspects of structure, style, and soundness. Big scrotaled bull that will be able to handle a few more cows with the 40 cm. His Eaton dam 30887, has a beautiful structured udder and a correct profiled matron.
Here's a modest at birth stud and well pedigreed bull with tradition and power edge on the maternal side for a strong background for putting the bulls toward the front of catalogs. Really nice bull with a big hip and smooth shoulder that would be a heifer bull for larger framed heifers.

The son that is the power bull for about time. 983 is #1 of his contemporary group for adj WW and adj YW. 983 is a strong topped, lengthy bull with a squared up top and tight sheath. 1% for TSI and top 15% in seven other EPD categories.

It is no accident, but he is the #1 carcass bull in his contemporary group. He carries the Silver Gun on the maternal side and it all makes sense for being the #1 carcass bull. Big scrotaled and his calves are the feedlot owners dream for carcass winning showdowns.
Casanova continues with his consistency of calving ease and puts himself on the map for respectable EPD numbers as well. This was one of our best choices we’ve made as far as going out to select a bull for calving ease. Casanova was our selection from the Doll Ranch.

Here is a sure-shot calving ease heifer bull. His dam is a purebred Charolais heifer, she just has slipped through of not getting registered.

Another calving ease heifer bull that was a top gainer for his contemporary group.

**Weber Satellite Ranch**

Directions from Wagner, SD: 9 Miles West, 1 Mile North, & 1/2 mile East.
WCF Mr Breeze 479 is a herd sire that really puts a lot of stretch, performance, and average daily gain into his calves. He is the son of our great donor cow 0180, which has some of her progeny in the sale through our ET program. He is a very good carcass herd bull.

The above calves were born between 4/18/19 and 4/24/19.
Kingsbury 374 is one of the most popular Kingsbury sons in the Nation. He is in the top 15% for WW, 20% for YW, and top 20% for SC, TSI, FAT, and CW. His calves are uniform, prolific, and are just flat out eye catchers. His dam is what the industry was turned around on, Tradition 066 and Prime Cut 764 for low body maintenance and retaining females longer in your herd with faster breed back ability. He has very moderate birth and explosive growth with that huge rear quarter. 374's dam and maternal sister Design 201 is being used extensively in their embryo program. Owned with Wienk Charolais, Lake Preston, SD.

Monumental has been the hottest talk of the year so far in 2020. He has some of the most eye appealing calves in the pen and backs it up with some pretty good performance. He has improved on his epd profile and moved into the top 1% in a couple of the categories and now is deceased. Homozygous polled. Owned with Wright Charolais.

It was just a matter of time before we got him back into our lineup to sell progeny from. Can't say enough about this historic type of herdsire, you can probably never duplicate a bull like this ever again. His epd percentile rankings are top 1% for ww, yw, mtnl, sc, tsi, cw, top 2% rea, 7% fat, 15% marb. The unicorn part of this is the carcass, very difficult to be in top 1 and 2% for 2 of the traits and hold the other 2 traits above 15%. This is defined as an industry changer. Owned with Doll Charolais and Schnuelle Ranch.

Large volumed bull from the performance freak Landon 715. The dam to this calf has had some previous bulls near the top of the sale and have gone on to do a great job for their buyers. Consistency, big time grow in his future.
Silver Gun 467 power genetics at work. 979's daddy is paving the way for the performance in the industry with his unicorn like ADG, unheard of carcass traits across the board, and contemporary group high averages in sales.

Rock Star is an outstanding selection we made out of the M6 ranch in Alvarado, TX. He is out of M6 Fresh Air 8165, who is a full brother to our M6 Nice Breeze 8174 that we had walking our pastures. Rock Star stamps that big hip and structurally straightens out the topside of his progeny. Big hipped and soft shouldered for a completeness that works for anyone’s program. Big strided out on the move and has excellent feet. He is a maternal king for femininity with perfect teat size and udder attachment.

This is the #2 bull for ADG in his contemporary group and comes from an ol’ Fasttrack cow that has done it year after year.

6126 is a heardsire we selected in M6's last fall sale for a great combination of power, structure, and muscularity style. Unfortunately, he was only able to spend one summer on pasture for us and unexpectedly passing in the following fall. His offering is not many, but you will see a couple of powerful individuals. We have limited semen and that is being used in our donor program.

This is probably a bull we should be keeping for ourselves, but we have to sell this type of bulls also. Heavy muscled, straight topped and clean fronted with one of the stronger cow families that should be in the donor program.
Power Edge is back in the lineup. He is also being used in our donor program. You talk about a massive, powerful hip and width over the top, and yet dimensionally holding everything together. These calves out of Power Edge are few, but they are true testaments of performance driven.

Lot 33

WCF MR POWER EDGE 9910

WCF MS GRID PLUS 0180

WCR MS GRID PLUS 0180

VCR MISS VALUE 427 P

Here he is, the Power Edge bull is back and this is a whopper, 0180 again, and in a different sire group again. Massive rump and thickness. Don’t pass him up on sale day. 4.26 ADG.

Powerful cream-colored bull from the sale topper in the Red Angus sale in 2018.
Over 3 million head of steer calves were analyzed from 2010-2016 and Charolais sired calves brought the largest average premium on a per pound basis!

(McCabe, 2018)
## CHAROLALIS HEIFERS

These Charolais heifers are offered by Jason and they come right from the heart of his replacement heifer pen. All culls were removed at weaning, put into a feed yard, and this is what he was keeping back for breeding. He kept back only a few heifers for himself and everything else is for sale. They are going to be some powerful cows someday, as you can see in the comments that dams within the pedigrees have made some high selling bulls. All heifers were palpated and pelvic measured by Sweetgrass Vet for breeding soundness.
9171 is an outstanding young heifer who really widens up over her top and is very thick, yet holds together a feminine front end of long necked and sleek shouldered style. Out of donor dam 14, the power cow.
Quite an opportunity here. Germaine 351 cow put another good one on the ground. This heifer is deserving of winning a class division, if not even further. Her mother, Germaine 351, has a Silver Gun flush son who sold down in Rennert Charolais that went to work at stud for Select Sires.

### Lock and Stock Feeds for all of your livestock needs

**Precision Nutrition • Parkston, SD**

Jason Weber  605-928-7954
**Keep it real**

**In the pasture**
- Lower birth weight
- **MORE LIVE CALVES**
- Increased weaning weight
- **MORE POUNDS AT WEANING**

**In the feedlot**
- Higher yearling weight
- **MORE POUNDS, EFFICIENTLY**

**At harvest**
- Increased carcass weight
- **MORE POUNDS AT HARVEST**
- Larger ribeye
- **BETTER YIELD GRADES**
- More marbling
- **HIGHER QUALITY GRADES**

Commercial cattlemen trust registered seedstock breeders to make documented genetic improvements that provide them the opportunity to succeed.

From 2004-2014, the 2015 AICA National Cattle Evaluation Genetic Trend Illustrates Charolais seedstock breeders are doing their job!

The trend shows dramatic improvements in every trait of economic importance.

This is our most powerful Red Angus sire we have ever owned and walked on our ranch. Entourage is a full brother to Red U2 Reckoning 149A that Six Mile purchased the year before we purchased Entourage. Entourage’s EPDS in the Canadian system have proven him to be a curve bender in their system, with his growth EPDS in top 1% for WW, YW, and total maternal. While yet being top 19% for MILK. He is an individual that can put dimension into your calf crop without suffering in another department. He is complete in all aspects of what our Red Angus breed needs. He makes awesome females who are feminine, udder structurally correct, phenotypical and can flat out make a good cow herd great. The bulls have explosive growth, sound foot, smooth front shouldered that ties into heavy rear quarters. The width over their tops is unreal and watching them trail away from you is angular and perpendicular with the front to back legs alignment. His progeny should be swarming the show rings. Owned with U2 Ranch.

Entourage consistently straightens up the topline of your cowherd and adds a lot of rib shape.
A powerful Entourage son we decided to retain for ourselves and what an addition he has been. He exemplifies an angular power and dimension in his calves. Prolifically, he puts all the pieces together with stride, proportional muscle pattern, and tight necked.

Prefix: WTI
9138 is out of the performance phenom Lock N Load 4931D. 9138’s sire EPD profile is unherd of for consistence from birth to the rail. If you sell pounds or want to test the waters by putting these carcasses on the rail, I would not look any further than these 4931D calves.

LEARN FROM YESTERDAY
LIVE FOR TODAY
HOPE FOR TOMORROW
These humble calves were all out of heifers, really well put together individuals with some eye-popping angularity.

These humble calves were all out of heifers, really well put together individuals with some eye-popping angularity.

**comments**: We selected Authority for his moderation and explicit muscle expression. In his defense, the EPD system doesn't do him any justice for what his calves are capable of doing. He may not be a heifer bull, but man can his calves put together some impressive growth numbers. Authority's calves give you that double take when looking at them in the pen, they are just those eye appealing cattle that you get into the pickup still talking about impressive muscling and phenotype. His females are reflective of his EPDs of maintenance energy (easy fleshing and low maintenance), and the female longevity in the herd. Owned with U2 Ranch.

Dam to Lots 130-132, 145, 149 Weber Miss Hamley 2114

Dam to Lots 130-132, 145, 149 Granddam Leland Julia 410-7307T. Pictured at 11 years of age.
2114 is at again. 910 is an embryo mat- ing with a proven calving ease bull. This is a heifer bull sire deluxe. When you have 2114 in the pedigree, you are going to get consistent cow making progeny, yet bull power on the male side. I have said it before, but 2114 makes a good bull better, she is what our Red Angus industry needs. Her EPD’s are average, but everything she had naturally, never got a chance to be averaged with anything else. They all had a halter put on them or she was at Trans Ova having embryos harvested.

Moderate framed red SimAngus bull out of the Red Rock 307A. These Red Rock calves are consistently good. Super docile and very prolific. Don’t pass up these SimAngus bulls.
RED ANGUS YEARLING HEIFERS

The Red Angus heifers are also offered by Jason and he kept a few back for himself, but everything else is for sale.

All the same stuff to say about them as the Charolais heifers. All heifers were palpated and pelvic measured by Sweetgrass Vet for breeding soundness. These heifers are going to be some great, sound uddered cows someday.

144 JBARW MISS COCO 91

Cat. 1A Reg.: 4230696
BD: 1/14/19

This was a tough decision to let this prime-time show stopper go, but we have got to let the good ones go also. As you study her, the angularity and dimension with her femininity, is going to make her very competitive. Don’t let this get away from you.

145 JBARW MISS JULIA 99 ET

Cat. 1A Reg.: 4230704
BD: 2/7/19

99 is your shot at a future donor matron just like her mother. Consider this an opportunity, I probably won’t let another daughter of donor dam Hamley 2114 go again. A dream herd would be filled with 2114 daughters and here is a start.

Lot 149

---

9904 is a moderate framed SimAngus heifer that really puts all things together. Another 2114 daughter through a flush to a red Simmental bull that I admired and got a chance to use him. His calves were consistent and just had that popping look that catches your eye. This heifer had a full sib we showed at the State Fair last summer in the SimAngus division. She stood 3rd out of a very tough class of 14.
Achieve it!

RETURN ON INVESTMENT
Red Angus genetics will improve your return on investment!

“For 10 to 15 years all the buyers ever talked about was black calves, and the black calves always brought more than everything else. Now I can honestly say that good Red Angus calves outsell the black calves and I know the Red Angus bred heifers will outsell black Angus bred heifers of equal quality every day.”

– Jim Davis, Superior Livestock Auction
