

# FOX HOLLOW FARMS

FOCUSED ON SOUND, FUNCTIONAL SEEDSTOCK

## FALL PRODUCTION SALE VOLUME 3

**October 29, 2022 | 1 p.m.**  
At the Ranch | Hulbert, Oklahoma

## **DON MELLOTT**

***June 5, 1944 — May 20, 2022***

On May 20, Don Mellott, our family patriarch, left this earth and went to Heaven. Don made the decision to raise purebred Charolais cattle in 1980, right here on this ranch. Like every other area of his life, he didn't go halfway. He traveled the U.S. buying embryos and recipients from the best herds in the nation at a time when embryo transplant was brand new and cutting-edge technology. He was all about excellence in everything he did, and he applied that to the livestock that we raised, showed and purchased. Because of Don, Fox Hollow Farms has won every major show and received breed awards for Show Female of the Year and Roll of Excellence Sire. Don loved the Charolais breed and enjoyed the challenge of perfecting his herd. In years past, it was his desire to win Grand Champion in the show ring, always looking for that next blue ribbon or trophy. More recently, he was driving the pastures and walking the pens evaluating the bulls, picking out the top sellers, and planning the future. We will miss him terribly going forward, but he left his spirit in all of us and we will continue the same attitude toward excellence that he had. His philosophy is the foundation of our program, and his vision is what continues to inspire us today.

We love you and miss you, Don, Dad, Papa!

Janet, Janette, Angela, Stephen & Christina

This is a herd bull prospect deluxe. He checks all the boxes; look, soft-made, numbers and performance. This sound unit has a little bit of an outcross pedigree for most and does it with style. A young herd bull with a touch of red factor to him which seems to be so popular today with Charolais breeders. You can admire outcross or a touch of red factor if that works for your program; at the end of the day, this is one of the best herd bull prospects that will sell this fall. Usually there is a debate for which bull gets Lot 1 honors. Well, not this year—this one made his presence known since birth. An added bonus, he comes from the same family as Gun Show, last year's second high-seller.

This is a powerfully constructed herd bull that has just gotten better since weaning. Big-boned, super sound and a great disposition. His almost 1,600-pound adjusted yearling weight shows the performance in this bull and the Silver Gun genetics. We preach multiple-trait genetics and this one reads in the top one percent in six traits. He is out of a 8-year-old cow that is still doing her job and traces on the bottom side to some of the early identified carcass genetics in the breed. This young sire prospect would definitely be an upgrade for most.

# WELCOME

## Friends and Cattlemen,

Thank you for your interest in Volume 3 of our Fall Production Sale. 2022 has been one of the toughest years for us. As you've seen on the inside cover, my Dad, Don, passed away very unexpectedly. We weren't prepared, and the loss is heavy. We do know that he is in Heaven, and the hope that we have in Jesus, that we can be reunited again, well that's what helps ease the pain. I've learned how short our time here is, and I encourage you to make the most of the time that you have with the people that matter. And if you don't have a personal relationship with Jesus, call me, or find me on sale day and I'll tell you about mine, what he's done for me, and how you can have one too.

We have a solid set of bulls and females for you to evaluate. As we've mated our herd, we've found what works and have stayed with that formula. Breed leading performance sires such as WCF Silver Gun 467, M6 New Standard 842, M6 Bells & Whistles 258P, WCR County Line 3132, and the tried-and-true M6 Grid Maker 104 P ET. We added Keys Cowboy 15C and EC Real Deal 127, and I think you'll be pleased with these calves as well.

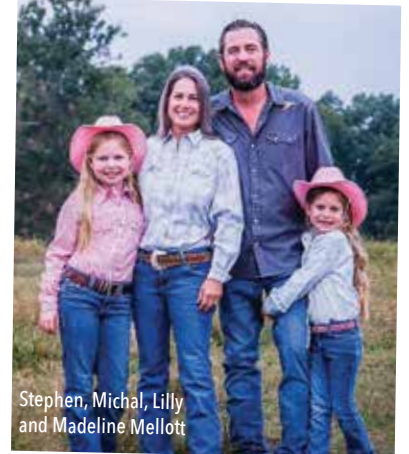

Dad always said to "cull ruthlessly", and that's what we've done. These animals will be sound, rugged and good footed. The females will be proven producers with good udders. If you're looking for multiple-trait performance genetics, then you have some decisions to make. I've watched these bulls from calving to sale day, and while I knew they could perform, I was still surprised when I saw their actual performance figures and EPD numbers. I also like how the calving-ease bulls didn't give up much against the performance-based bulls.

The females are tough to let go, but if we're going to have a sale, then we're going to sell good ones. The Pick of the Fall Heifer Calves is something I said I wouldn't do. Picking between these three will come down to personal preference. I have a place reserved for all three in the donor pen! We're offering some fantastic splits, pairs and bred females—out of proven cow families. Each female lot has done something good to earn their spot in this sale.

We strive to produce sound, functional cattle with performance, to help you succeed in this ever-challenging beef industry. Anything we can do to improve your bottom line is at the forefront of our genetic decisions, and we think there is a lot of good in this offering.

Thank you again for your interest in our program. If you have any questions don't hesitate to contact me, our Ranch Manager Randy White, or our Consultant Clifford Mitchell.

We hope to see you Saturday, October 29!

Stephen, Michal, Lilly and Madeline Mellott

The deck is stacked this year with these high performing Gun sons and this one may be the most powerful yet. A really stout bull that topped the charts when we gathered weaning and yearling data. This is a proven commodity, his dam traces to the great New Jewel cow of the M6 fame that once sold for over \$30,000 for half interest. Since that time, her daughters and granddaughters have been responsible for some of the high sellers in the breed. Power, function and performance—study your lesson here because this is a good herd bull prospect.

This could be the most unique herd bull prospect in the offering. He is calving-ease with style in a moderate package. His pedigree is different being a Patriot out of a full sister to Bells. He could work in a lot of places in the industry from club calf to purebred. Style, power and function best describe this bull and he will be an upgrade for most. He already has proven he is a survivor being born in the cold stretch of 2021 that I am sure everyone remembers. This young man is ready to walk.

This is probably the best County Line son raised at Fox Hollow to date. Power, style and a great cow family. His mother is one of the lead donors here; a \$16,000 purchase as a six-month-old heifer. She was special from the beginning but being a Bells out of a full sister to New Standard probably made the decision to add her to the donor pen a little easier. The same family produced the high-selling bull in last year's sale. This guy is a can't miss prospect.

# HEIFER PICK

Stephen decided to bring something very special to the female offering this year and decided to offer choice of the top three yearling heifers. Don't sit on your hands expecting us to offer another choice, because we're only selling one. These three females, though they are each unique in their own right, they embody what the goal is at Fox Hollow. Sound, Multiple-Trait females that have a look to them.

This is a great package, a true donor prospect and a favorite at FH. Her mother doesn't miss, especially when mated to the \$105,000 Bells. She has donor written all over her and that cow look that is needed in heifers ready to take the lead in a breeding program. Sound, functional and a great disposition. Don't sleep on this one! Her full brother is the lead bull at Double R Dees in Texas.

## SELLING CHOICE OF OUR TOP THREE FALL HEIFERS

# HEIFER PICK

These are the best three females we have to offer and would prefer to not part with any of them, but if we're going to have a sale we're going to do it right and offer the best. Study your lesson here, I am sure the selection will be a difficult one to make.

One of the few Gun daughters that will ever have the possibility of leaving FH at a young age but it is the chance you take when you offer your best. She has the best EPD profile of any of the three of these potential donors. Her 10-year-old dam traces to the famous Elvira family and keeps having good ones. A half sister is one of the top two-year-olds and this family just flat works. She's intriguing and brings a lot to the table.

The heifers are all good in their own right, but this one has a little more pizzazz and style to her look. County Line and Wind is the new cross we have identified that works every time. It doesn't hurt that her dam is out of Verna E225, one of the most attractive Charolais females I have ever seen, and she goes back to the great X140. Charolais connoisseurs understand the value of her bottom side.

**DUE 2/22/23 TO RBM FARGO Y111**

This is a young 5-year-old that goes back to the original Nancy at M6 382. This moderate, choke-fronted female has the perfect udder and could fit into any donor pen. Look through her pedigree and the families represented on both the top and bottom sides, you won't find better. All the big names in the breed are there. Though, it takes a generation or two to understand what she's all about. She calves like clockwork every year and her Gun son may be the best herd bull prospect we have to offer.

This young stud just keeps getting better. Gun Runner has blossomed into a bonafide herd bull prospect with a huge weaning weight of 893 pounds. This dude is balanced, great hipped and a little softer than most Gun sons. FH has raised a lot of good Gun sons, but Gun Runner may be the best one to come down the pipe. Obviously, the best Gun sons come from Hulbert, Oklahoma, off the beaten path, but this one deserves a look. FH is retaining 25% interest to use within the herd, yes he's that good and his mother's perfect udder makes it an easy decision. Purebred breeders- this is the next great one.

**DUE 5/15/23 TO THE CURRENT NATIONAL CALF CHAMPION, TR MR. OUTSIDER 1963J ET**  
This is another multiple-trait female tracing back to the famous Elvira family. Good uddered, balanced, sound, functional and docile. This five-year-old probably shouldn't be leaving, but we decided to break out the best once again this year. The Ledger Grid Maker cross never fails and she is special. You always judge the top brood cows by what they bring in for weaning in the fall, and look at the Gun heifer she raised.

The look and style of this young Gun daughter will make you stand up and pay attention. Her EPD profile and her heritage would make you think future donor. She could be in the same class as the pick of the fall heifers, she's that good. This is one you can't sleep on because she has a great future and is going to be a money maker. Early indications of the Gun daughters at FH is they have great udders and are going to be very productive. Phenotypically, she is one of the best Gun daughters we have raised.

It seems like we're offering the best from every sire group. This Real Deal daughter is exactly that—the real deal. Look at her length of body, mass and good hip. Her widest point is at the stifle and if weren't for a couple individuals in the sale you could say her banner hanging lineage floats her to the top. She is good and rivals the pick and 103A. We chose to go different because we liked her sire and she is a donor prospect for sure. Her maternal line has cashed a lot of checks over the years and she could be the next meal ticket.

**110A:** Polled heifer calf born 7/22/22, sired by Jeffries Oly 246G. This is a good first calf heifer with a composite heifer calf at side. This is a value-added option with a heifer calf. Breed some composites or purebreds, it's the best of both worlds. **TOP 25% YW; 20% MTL; 8% SC, MARB AND 20% TSI**

**DUE AROUND 3/1/23 TO JEFFRIES OLY 246G**  
 This is one that took a lot of talking to get Stephen to part with. Her mother is a family favorite. She is choke-fronted, long and extended. There is lots of cow power backing this one and when you stack great cow families the results are going to be good. Our program is one service timed AI and then the heifers go with Roy (Jeffries Oly 246G).

**DUE 2/22/23 TO THE RESERVE NATIONAL CHAMPION, SUMMIT BOJANGLES B09**

This blue-collar gal is nothing fancy, but she gets the job done. Sired by the Design son that was the top seller in the inaugural sale to Duane Jeffrey. Soft middled and traces to the same cow family as one of last year's top selling bulls, Gun Show and Lot 1 this year, Cowboy Code. Untapped potential and she's carrying a Bojangles baby.
