- Tremendous "Cow Power" in every generation. All were donors that commanded high prices at auction and were donors in multiple programs. The Bells/New Standard cross doesn't miss and this herd bull is no exception. The largest group of sons to sell to date; they combine look, performance, maternal and carcass. This sire group is solid.

These PF Red Hot bulls have long been a popular choice for commercial cattlemen. The half bloods offer a lot of options whether for maternal or terminal genetics. These cattle are a designed product because we believe in them and the cattle are very desirable to hang on the rail or walk in the pasture.

Welcome cattlemen and women,

Williams Cattle Company is a family operation rooted in Mountain Grove, Missouri, with years of experience in every sector of the cattle industry. From growing up on a dairy farm, to raising commercial calves, to now raising and selling quality angus cattle, livestock runs deep for the Williams family.

Evan and his wife Brittany, along with their son, Waylon, and their oldest nephew, Braxton, work daily to take quality care of their animals and ensure they are producing the best cattle possible. Braxton, who is 13, is very excited to offer this first set of bulls, and to start building relationships with customers that can last a lifetime.

The Williams family is dedicated to producing consistent quality, and offering real world bulls that work for commercial cattle producers. Rather you're breeding heifers, or cows; selling calves at weaning, yearling, or keeping replacement heifers, we truly believe there is a bull for you in this sale.

If you have any questions about any of the animals in the sale, please do not hesitate to reach out!
