K837's sire is a Sculptor, a full brother to Rushmore and Ledger's dam. And another powerful ET son of the Thunderella donor cow. He's freaky fronted, great hipped and big ribbed like his dam. Started slower on his recip dam but caught up quickly at yearling. He's one that just keeps getting better every day. Good sires have great cow power behind them. Razzmatazz has it in spades!
