AICA M984573 BW 75 lbs AWW 853 lbs Ratio 111

Need a good reason to sit up and pay attention? Derry Wright has saved this name for just the right bull and he is WC Uno Mas? 2587, so do we have your attention? WIA Backwater Jack 060 P continues to present himself in the breed as one of the success stories of a sire after winning a National Championship! His progeny have become sought after genetics throughout the breed. The dam of WC Uno Mas? 2587 is without doubt one of Blue Value's very special daughters. She was born 8-14-15 and her calving interval is; 9-10-17, 9-7-18, 9-1-19, 10-15-20, 9-22-21 & 10-3-22. Her only three sons had AWWs of 787, 816 & 853 lbs. One of those sons WC Moonshine 0641 had a one-half interest sell for \$10,500 to Sand Hills Charolais in Oklahoma. A full sister to the dam of this bull had a daughter WC Sweetheart 9502 P sell for \$20,000 in the 2021 Wright Online Heifer Sale. The bull will be "One More" great one for your herd and the breed! PA-F and Homozygous Polled.

WC Loaded For Bear 2538 P

AICA M989450 BW 76 lbs AWW 853 lbs Ratio 111

An exceptional Lock N Load son that puts in many good traits together with power, growth and maternal. Another high performing bull sired by the performance sire Lock N Load that we have come to depend on to add weaning performance. His dam a young female born 9-6-18 continue to come on with increased performance with every calf. Her calving interval; 9-30-20, 9-18-21 (a 735 lbs. AWW bull) and now pushing it on up to an outstanding AWW of 853 lbs. to ratio 111, the #11 highest weaning weight bull calf of the entire calf crop of 62 bulls! PA-F

An absolute beast, the "Tank Commander" ties it all together from low birthweight to high growth spread, along with great feet and testicular development. This son of DC/CRJ Tank E108 out of the highly dependable WC Missy cow family, truly excels in type, kind, performance, and numbers. He ranks in the top 5% of the breed for CE, WW, YW & TSI. He ranks in the top 1% for Milk and Maternal. WC used the Tank outcross genetics to insert more performance into the Rushmore line that already excelled in calving ease, milk and maternal and are extremely pleased with the results, as you will see. He is a 7/8th brother to WC Artillery 2404 P pictured on the inside back cover of the January Charolais Journal. His dam WC Missy 0561 is heading to the embryo transplant barn at this rate. PA-F.

This is the bull Chris was hoping for to use in the WC herd when he sampled the genetics of WCF Mr Silver Gun 467. Massive from every angle but still smooth and that is hard to do when growing to almost 1,000 lbs. of weaning weight. He ranks in the top 1 or 2% of the breed for WW, YW, Milk, MTL, CW, REA and TSI. And MARB top 5%. Another plus for Chris when keeping a bull to use as a herd sire is a strong cow family and you could not ask for a better one than the Queen line. The dam of this bull was born in the fall 2016 and has a calving interval of; 9-3-18, 9-28-19, 9-1-20, 9-18-21 & 9-4-22! She started out with a bang in 2018 producing the #2 ranked highest weaning weight bull calf to a 114 AWW. She has produced three sons to an average AWW of 828 lbs. and two daughters to an AWW of 717 lbs. The maternal granddam WC Blue Queen 101 was born in 2011 and had ten progenies from 2013 to 2022, with 5 WC born sons having AWW's of 745, 762, 791, 777 & 758 lbs. The great granddam Queen 7067 has produced 57 progenies for WC! What more could you ask for? PA-F.

THE HOME OF ELITE CHAROLAIS.

Use your own "Artillery" to win the battle of calving ease and still perform! Sleep all night calving ease that maintains breed average growth at weaning and then excels towards yearling is hard to do. He ranks in the top 1% of the breed for CE, BW & Milk. Tank has over 2,000 progenies registered at AICA and he is passing his 915 lbs. AWW on as well as his AYW of 1,606 lbs. and ratio of 129, which ranked him as the #1 AYW out of 105 head of contemporaries. WC Artillery 2404 is out of a first-calf-heifer that comes from the same cow family as WC Uncharted 7328. This herd sire is a 7/8th brother to our other featured Tank son WC Commander 2414 P. PA-F and Homozygous Polled.
